

DELIVERING QUALITY SINCE 1883

Thermoid has represented excellence in quality since 1883, and has delivered innovative solutions for the most challenging environments across air, land, sea, and space.

EXCEPTIONAL PRODUCT DESIGN

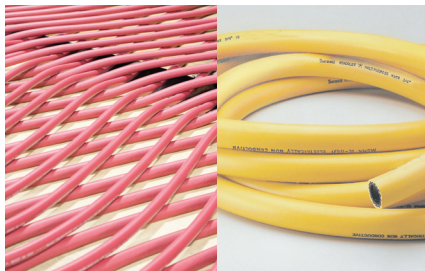

Thermoid has a strong legacy of supplying high-quality, reliable rubber products to the industrial marketplace. Thermoid's internal mixing process provides products with a consistent quality. From standard to custom-designed, we can create an almost unlimited variety of hose and/or other rubber products to meet demanding and unique applications.

MANUFACTURING EXCELLENCE AND SAFETY

Thermoid products are made in environmentally safe manufacturing facilities. All products are designed to meet or exceed stringent industry standards. Our commitment to maintaining and improving the quality and performance of our products has made us a preferred partner to our customers.

PRODUCT EXPERTISE

HOSES

Thermoid manufactures a variety of air/multipurpose and automotive hoses with capabilities to produce hoses with pressure ranges of 150 to 500 psi, temperature ratings from -65°F to +275°F, and diameters from 3/16" to 2".

We also manufacture a variety of industrial, multipurpose, specialty and automotive hoses with capabilities to produce hoses with pressure ranges of 150 to 1000 psi, temperature ratings from -65°F to +450°F and diameters from 1/4" to 1 1/2".

We can also supply custom configurations to meet your specific application.

LIGHTWEIGHT CONVEYOR BELTING

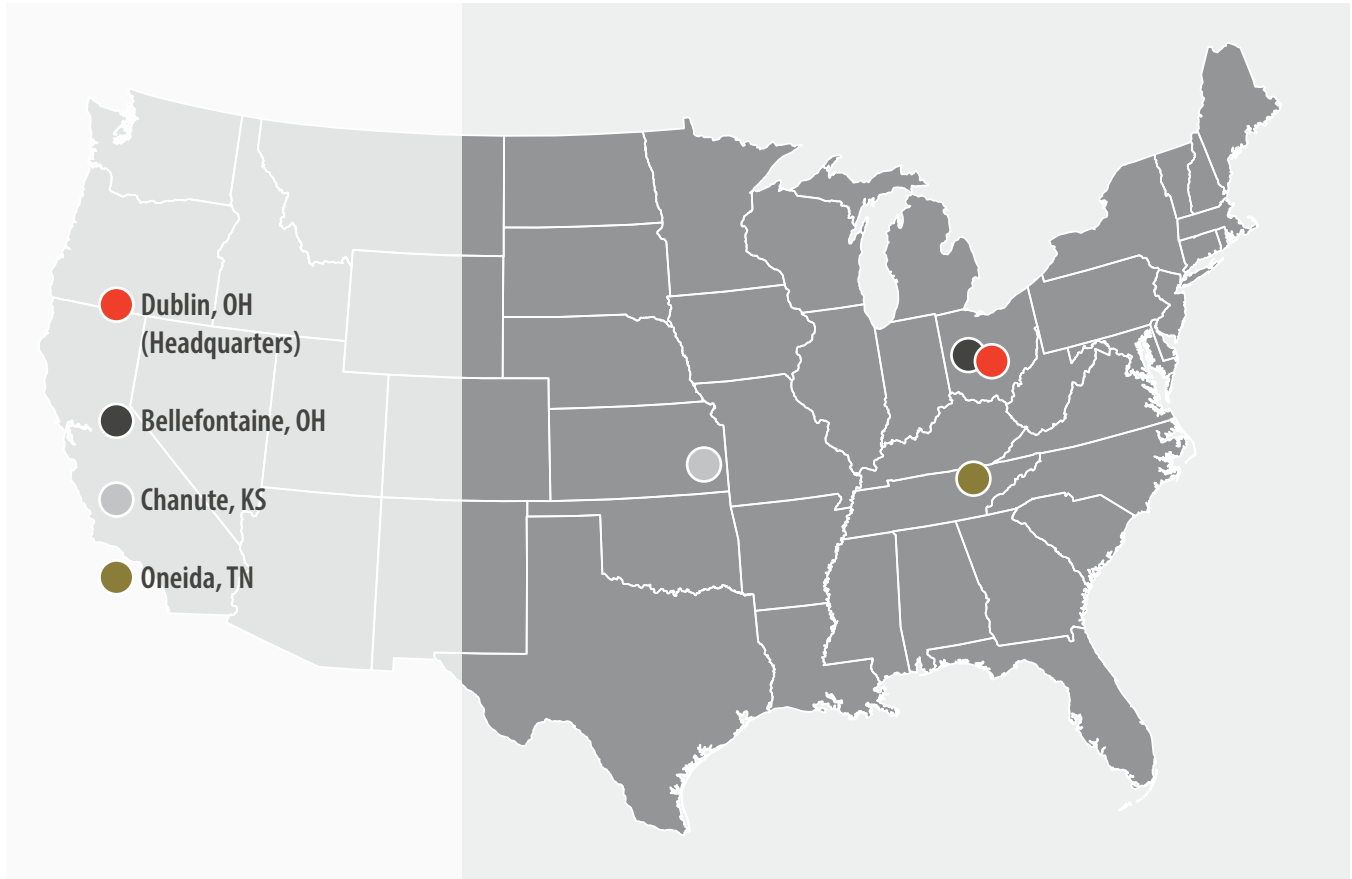

Thermoid has an extensive conveyor belting product line from package handling belting to USDA/FDA approved, stain resistant food-grade belting. Our PVC and rubber belting products offer multiple configurations from molded surface patterns, standard, inclined, sub-zero construction, coated fabrics, covers and tension ratings from 90 through 600 lbs. Thermoid's expert design and application engineers are available to assist customers to provide customized belt solutions for the most demanding industry applications. Thermoid's cover compounds are developed by our own research chemists to handle conditions such as oil and grease, heat and cold, chemicals, acids, moisture and abrasion.

DUCTING

Thermoid offers air/fume control and light material handling ducting products for industrial applications. Our standard ducting products allow customers a wide choice of fabrics, constructions, coatings, resistance qualities and temperature ratings depending upon their requirements. We are experts at designing both standard and custom products. All of our ground support products are engineered to meet the strict demands required in the aerospace, general aviation, and commercial airline industries.

HEADQUARTERS & MANUFACTURING FACILITIES

APPLICATION EXPERTISE

Our expert design and application engineers are available to assist customers to provide innovative solutions for the most demanding industry applications:

AEROSPACE/ AVIATION

- Ducting
- Gasper Hoses

AGRICULTURE

- Ag Spray Hoses
- Farm Tank Hoses
- Lightweight Conveyor Belting

AUTOMOTIVE

- Air Brake Hoses
- Fuel Line Hoses
- Heater Hoses

CONSTRUCTION

- Air Hoses
- Lightweight Conveyor Belting
- Fueling Hoses
- Welding Hoses

CUSTOM

- Made to order hoses with special colors & branding

DEFENSE/ MILITARY

- Ducting
- Jet Starter Hoses
- Military Spec Hoses

MATERIAL HANDLING

- Ducting
- Lightweight Conveyor Belting

METAL PROCESSING

- Vacuum Hoses
- Welding Hoses

MINING

- Jackhammer Hoses
- Multipurpose Hoses

PETROLEUM DISPENSING & LPG

- Curb Pump Hoses
- Fuel Oil Delivery Hoses
- LPG Delivery Hoses
- Marine Dockside Fueling Hoses
